

Biography

Patrick Hartigan BSc Elec Eng, MIEE, PhD Satellite Communications

Chief Executive & Technical Director

Patrick Hartigan has been at the helm of Securecom Technologies for the past 3 years. In his position as Technical Director during that time, Patrick was instrumental in delivering on the €300,000 ESA project and bringing the new-to-the-world wireless devices through the R&D, prototype and customisation stages.

Patrick has over 25 years experience working with wireless communications. During that time he founded *Nowcasting International* (www.nowcastinginternational.com), *Moher Technologies* and *ems Consult EEIG*. He regularly acts in an advisory role for the European Commission DG INFSO, ENTERPRISE, RESEARCH, Enterprise Ireland and other European agencies.

Patrick has extensive experience of participating in ESA/EU projects having been involved directly in over 9 projects and acted as reviewer/evaluator on behalf of ESA/EU in over 30 cases.

Patrick is fluent in French and Italian, and also speaks some Dutch, Irish and Spanish.
